Smarter Nutrition with NanoTechnology

Mexild: Stronger plants, bigger harvests

How Mexild Works:

- Nano-sized nutrients in Mexild are absorbed extremely fast, delivering immediate action inside plant cells.
- The technology maximizes nutrient efficiency by minimizing losses from leaching, runoff, and volatilization.
- Mexild delivers nutrients directly through the leaves, ensuring quick supply while protecting soil health.
- Molecular-sized particles of Mexild provide a much higher surface area, making the formula more powerful and resulting in healthier plants, stronger roots, and higher yields.

Benefits of Mexild?

- Accelerate Photosynthesis
- Boosts chlorophyll content
- Supports Holistic Plant Growth
- Improves root strength and depth
- Stimulates healthy flowering
- Enhances fruit size & weight

How to Apply

Dose	<ul style="list-style-type: none"> Foliar application 1 Ltr/Acre or 5ml/Ltr (Apply early in the morning & late evening), Drip/Soil Application 500ml to 1 Ltr per Acre (Shake well before use)
Recommended crop	<ul style="list-style-type: none"> Fruits and Vegetables: All type of F&V, Guava, Pomegranate, Potato, Grapes etc. Grains & Pulses: Wheat, Rice, Tea Coffee, Corn, Sugarcane Flowers Ornamental Plants
Application methods	<ul style="list-style-type: none"> Foliar spray Pivot irrigation Drip Irrigation Sprinkler
Compatibility	<ul style="list-style-type: none"> Mexild is generally compatible with most pesticides, not all fungicides. However, we recommend a small test before mixing. For best performance, apply Mexild individually.

Specifications

Available Nutrient	Mexild
Total Nitrogen	11%
Phosphorus	11%
Potassium	8%
Zinc	0.7%
Boron	0.7%
Type	Liquid
Required material per Acre	1 Liter
Application type	Foliar Spray & Soil

1 Ltr Mexild = Urea/ DAP/ MOP

- Mexild replaces chemical fertilizers like Urea, DAP, and MOP—giving your crops balanced nutrition for better yields and healthier soil
- Its balanced Nano-NPK formula not only supplies essential nutrients but also accelerates photosynthesis, ensuring faster and healthier plant growth.

Type of Packaging

250 ml

1 Ltr

5 Ltr
